## 2. IMPORTANT TO KNOW – BEFORE THE RALLY

### 2.1 CUSTOMS CLEARANCE FOR CARS AND EQUIPMENT

#### Competitors from the European Union

Competitors coming from the European Union do not need to make any special customs clearance. They may use their rally car in Finland for 30 days without clearing it, for the service vans the time is 6 months. Tyres and reserve parts can also be imported without clearance. It is always good to have a list of tools and equipment you bring into the country, in case you will be asked to prove what you had with you on the way in.

#### Competitors from outside the European Union

Competitors coming from outside the European Union will have to report at the customs on their way in. Please prepare a list of all the tools and equipment you are bringing with you. This list will be stamped at the customs and they may collect a guarantee fee (the amount is negotiable). Tyres are under customs as they are non-durable goods. The customs payment will be returned if the used tyres are exported from the country
